Thought provoking acoustic simplicity with some jazzy Bluesy flavors, a country piece and other tales in search of a better oxymoron, "intense easy listening." 7 MP3 Songs FOLK: Modern Folk, BLUES: Acoustic Blues Details: If you take a step back from the mass produced way of life and look in the direction of the handcrafted or live performance part of this world, you may find that many people still enjoy experiencing the unique moments of life that happen in small but savory bites. A great cup of coffee with a close friend that lingers in memory and returns when the aromatics of life call the picture of that single moment back to mind. A song by a street musician may cause a chain reaction of singing or dancing as you look around at other people responding to something real in life. People watching can also take you away from the conditioned response of the advertised life. What do you notice in life? Some people like to look at their mirror reflection, imagining their own alter ego inside. They like to bring the delusion to life and be instantly, magically changed for a while. Then someone will call out their name or come over, askin' if they're all right, they'll turn with a frown or blank look on their face and say, "something's in my eye!" I like to go downtown window shopping, disguised with designer bags looking to buy, and when I find me a wall full of mirrors, I spy the side vision on the left and the right. I'm not looking for beauty or beast in the view, that's not my thing at all, I'm looking for someone who's lost their reflection, lost it in the wall... Hmmm There are many reflections of RAW to be discovered in these recordings that will move you from the hype and overproduced sounds of everyday music to a realm of a live and personal experience in sound. Just what is an "Indie" if not independent of the mass?
