[DOWNLOAD HERE](#)

A wonderful mix of hearty roots, gritty rock, twangy country and folk with gutsy female vocals. 10 MP3 Songs COUNTRY: Country Folk, ROCK: Roots Rock Details: Steff Mahan plays a mix of roots, rock and folk and carves out a style all her own. Recent breakthroughs include opening for Patty Griffin and being interviewed by Jim Kerr on Sirius Radio. The Nashville City Paper calls Steff "a wicked-cool singer/songwriter. Billboard hails her as "an entertaining can't-miss performance." Steff is happiest when she is on the road in Beulah the mighty, mighty blue mini-van. To say she loves her job is an understatement. Steff is passionate! Not only about her music, but about every single person she meets. While she may come into a town not knowing a soul, she rarely leaves without having friends. But she will also admit sheepishly that her traveling is also a way to find the country's best coconut cream pie. Check out Steff's website for stories from the road, tour dates, and how you can contact Steff at [steffmahan](#) Happy trails and thanks for checking out Steff Mahan on CD Baby.
