

Mp3 Uncle Roy - Reindeer Claims / Rooftop

[DOWNLOAD HERE](#)

Christmas novelty songs, newly created for a lighthearted look at Santa and his reindeer - "these future classics are the best new Christmas novelty songs in over forty years. - Expect to hear these played for years to come." 6 MP3 Songs COUNTRY: Country Folk, FOLK: Folk Pop Details: Getting ready for Christmas: The singles, "REINDEER CLAIMS" / "ROOFTOP", are two completely original new songs. Reindeer Claims brings a humorous look at the reindeer's dealing with Santa's weight problem. Now, after all these years the reindeer, quiet for so long, have had it with Santa's bulk and are now publicly giving notice. Their claims have lots of people laughing, and children and young people singing along. This inventive new Christmas novelty tune has been criticized as: "...the best new Christmas novelty song in over 40 years!" ROOFTOP is a humorous nighttime pursuit of Santa and his reindeer as they travel from rooftop to rooftop, our pursuer hot on their tails until... Anyway, we finally have a witness to Santa's Christmas-Eve-night adventures. Children have said: "It's funny. I liked the words. They made me laugh." Other critics have stated: "...Reindeer Claims and Rooftop are both future Christmas classics. I expect to hear them played on the radio for years to come." "Some indie music doesn't have enough musical instrumentation, or lacks something in the arrangement. But, both of these songs are very well arranged. I was very surprised at the use of instrumentation. They're not just a strumming guitar with a bass, piano and drums. They're full arrangements. Truth is, I even just enjoy listening to the musical tracks." BIO: Uncle Roy, involved in music since he was 7 years old, majored in music for two years prior to joining the US Army, as an Army Bandsman with the 76th Army Band. He survived 3 years of Army life, and 6 years later, survived a one year battle with cancer. IMPOSSIBLE DREAMS: He is now fulfilling a life long dream: to write, arrange and record his own music. The project began January 1, 2003. These original tunes and words, and all instrumentation were written, arranged, and performed by Uncle Roy using a

digital electronic keyboard. He then took his songs to professional engineering and mastering studios where the musical sounds were balanced and the voices recorded. He has achieved what some said was an impossible dream, yet many aspire to do. And he did it all after the age of 50. We're sure you will enjoy these refreshing new future Christmas classics on Hitbro Records. We invite you to sample them here. Now, you've probably noticed your shopping in stores you've not been in all year. That means Christmas is here.
