Attention Internet Marketers! Have You Been Keeping This Under Your Nose? "Discover How To Tap Into The Single Most Powerful Method You Can Use To Increase Your Leads, Sales And Reputation Manifold... For FREE!" If You Have Been Struggling Really Hard To Explode Your Sales And Leads Or You're On A Shoe-String Budget To Invest In Paid Marketing Tactics, Then This Is The Most Important Letter You Will Ever Read. From: Dennis Sim & Revenue Dear Aspiring Internet Marketer, Have you ever heard of the old saying, "It's not what you know but who you know that matters"? Internet Marketing is the embodiment of that saying. Established Internet marketers have spent years building lists of potential customers so they certainly know the right people to market to. The new marketers, on the other hand, can shortcut their curve by gaining access to those lists of the right people in order to break into the Internet marketing arena and Joint Ventures (or JV in short) are the way to do that very thing. Here are just five (5) of the overwhelming number of benefits available in a Joint Venture with an established Internet marketer for the newcomers: 1. Access to a potential customer base that would otherwise be inaccessible. Established Internet marketers have lists of customers that would be most likely to purchase the product or service you are selling. 2. The possibility of establishing a good working relationship with

an established Internet marketer that could turn into an ongoing and mutually profitable arrangement. 3. Associating yourself with a successful partner can help to establish credibility for you and open many doors. Your Joint Venture partners' credibility will be passed on to you simply by association. 4. A Joint Venture can help you to build your own opt-in list. The all important opt-in list is the backbone of Internet marketing. Building lists takes years but with a successful Internet marketer as a Joint Venture partner, you can cut the time needed in half. 5. You will be guaranteed a much larger response to your new product or service than you could ever hope to generate on your own. Moral of the story? A Joint Venture is the best and quickest way for a new Internet marketer to become established - in a cost free fashion!

"Great - But If Joint Ventures Really Work..." "... then why do I hear responses like these from potential partners every time I e-mail them?", you ask. * Sorry, but I'm too busy. (We often hear this in one version or another, right?) * No thanks, I'm not interested in striking a Joint Venture deal with you. * (Never got your reply from the potential partner you've mailed several days ago) If this is the kind of results you're getting right now, the first thing I'd like to advice you is - DON'T DESPAIR! It's not that Joint Ventures are dead, in fact they're being done around the clock. You're just not doing it right.
