

## Web Photo Cash Saver With Mrr

[DOWNLOAD HERE](#)

You've purchased this product with full Master Resale and Redistribution Rights. More The Best Products with PLR or MRR at [lucky7.tradebit.com](http://lucky7.tradebit.com) "Here's A Quick And Easy Way To Save Time And Money When Buying Photos For Your Websites" Lots of webmasters add photos to web pages, to make the site look more attractive and make pages look more relevant to the niche. The drawback is that for a site with lots of article pages, that means finding and buying lots of different photos - one for each page. Alternatively you can use the same photo on many pages, so visitors will keep seeing the same image again and again, but this can make your site look stale and uninteresting. Web Photo Cash Saver provides a simple alternative. With this software, you buy just a few photos. The software will then show them in sequence to each visitor. So when a visitor arrives at your site, they'll see photo 1 on the first page they view, photo 2 on the second page they view, photo 3 on the third page they view, etc. If they get to the end of the sequence, they will start again with photo 1, but since most visitors only visit a few pages of a website, most visitors will see a different photo on each page they visit. Each visitor is tracked separately using "cookies", so the system can handle an unlimited number of visitors. This simple solution means you only

need a few photos - even if you have dozens or even hundreds of articles - saving you time searching for photos and reducing your photo costs. Web Photo Cash Saver makes it quick and easy to apply this solution to any website. Simply enter the photo file names into the script set up tool and then upload the script and the photos to your website. The script will handle everything automatically. Install On An Unlimited Number Of Sites You only need to order one copy of this software, irrespective of how many sites you own. You can install your copy of the Web Photo Cash Saver script on as many sites as you want - all at no extra cost. Full Master Resale Rights Included FREE Web Photo Cash Saver is a great tool - but I'm going to make it even more profitable for you, by including full Master Resale Rights free! This means you can sell the software yourself and keep all the money. Just make one sale to recover your investment. I'll even give you a copy of this ready-made sales page to make it really easy for you. Just add your own order button to the ready-made page, upload to your own web host and you can be ready to take orders instantly. You can also use the software as a valuable bonus with other items you sell, or include it in packages and membership sites, or give it away free as a valuable bonus for your newsletter subscribers.
