WRONGFUL DEATH: The AIDS Trial is a fictitious courtroom drama exposing the government lies and incompetence, gross medical malpractice, and unbridled greed by a drug company that caused our American AIDS epidemic and cost 300,000 lives in just ten years - five times the number killed in the entire Vietnam War! After twenty-five years, you will finally learn the truth about HIV and AIDS as it unfolds in this three-trillion-dollar class-action lawsuit. Find out from expert legal witnesses why the virus we have been calling HIV cannot be the cause of AIDS. Read the testimony that in 1987, when the FDA finally approved AZT - the drug that was supposed to treat AIDS - it began causing AIDS, and every person who took it would die within four years. Then see the list of more than 900 actual medical and scientific research papers and reports on which the truth is based. If you like courtroom drama, you'll want to read this book. If you ever knew someone with AIDS or HIV, you need to read this book. If you still believe the government and the FDA are protecting you against deadly diseases and dangerous drugs, you must read this book!
