Does your website talk? If you said no, you could be losing a small fortune everyday... Audio has the ability to make your website make you 300 MORE money, and now you can add audio to your website in 5 minutes flat... and never pay a monthly fee! Have you ever read a sales letter only to ask your self half way through it, "what are they selling here?" or just plain gotten so bored you stopped reading after the first half page? Now if your like me you can not afford to spend between \$5,000 and \$15,000 to have a Michael Fortin, or a Dave Vallaries write your sales letter for you. Your going to either have to settle for a cheap copywriter that will probably not get your point across, or close any more sales than you will.... Or you can sell your product with streaming audio.... Hummm, stream audio huh.... that sounds technical, and I have a hard enough time even putting up a website. Well it does not have to be, not anymore anyway... Now You Can Get Your Message Across Loud And Clear! "Website Audio For Newbies", software can now do your selling for you. Ok, enough talk. It's time to get Automatic Website Audio for Newbie!
