Discover How to Quickly Easily Protect Your Web Pages from Unscrupulous Cyber-Thieves! Dear friend, Did you know that online content theft is at an all-time high right now? Well, its true. Just look at some of the many ways thieves could be stealing from you at right this very minute: They could be stealing your PayPal download "return link" by simply clicking View, then Page Source They could take and use your web page design and graphics by simply clicking File, then Save As They could copy pictures, images and other artwork from your page, even those that are copyrighted, and use them elsewhere They could harvest email addresses from your page and start spamming them And much, much more! Clearly, You Need Protection You Need HTML Lockdown! Dont let thieves profit from your hard work and expense any longer get HTML Lockdown and close the door on online theft for good! Heres how HTML Lockdown works: You simply select a file to be encrypted, enter a password and click on the LockDown! Button. Its that easy! Your page contents will be instantly protected including: HTML code JavaScript VBscript Text Links Graphics And more! Thats Right, HTML Lockdown Makes It Impossible for People to Read Steal Your Source Code Other Important Content! If youve done or paid for any significant web design work,

you know how much time, energy and money it takes to create a unique and professional-looking web page. HTML Lockdown ensures your pages retain their value and dont suddenly proliferate all over the web making it look like you just copied someone elses design. HTML Lockdown also disables: Text copying via right mouse click Text selection Page printing Offline use Links display And more Now You Can Encrypt Protect Your HTML Pages With Passwords - All in a Few Clicks! No Special Programming Skills Required! HTML Lockdown uses strong encryption algorithms to protect your page content and further ensures the safety of that content by requiring you to select a password. Using these methods, the program will prevent anyone from viewing your source code or stealing your art work. However, all of your encrypted pages will have the exact same appearance as the original pages and can be viewed in all modern web browsers. You see, HTML Lockdown modifies the source code of a web page making it unreadable and non-editable without changing the way a page looks in a browser. Here is even more of what HTML Lockdown does: Protects your PayPal links Hides your original HTML source code Prevents your images from being copied and used by someone else Creates special password-protected pages Stops right-clicking Stops offline browsing Stops URLs from being displayed in the browser bar Works with any web host So What Are You Waiting For? Stop letting thieves take the content you got through hard work and your own expense. Get HTML Lockdown today. Remember in todays competitive Internet marketplace, you need every advantage you can get and HTML Lockdown helps ensure that you keep your advantage by preventing others from easily copying and profiting off your innovation. Make them do their own work and spend their own money! Product Rights-- Master Resale Rights + Private Labels Rights Retail Value --\$47
