British alt.rock music - big guitars, big beats, Hammond organ, grit, wit and above all, a BEAUTIFUL chorus - think of Doves meet Pink Floyd. Epic songs. 13 MP3 Songs ROCK: Modern Rock, POP: British Pop Details: If there's a theme to the album, it's Life Is Short. With that in mind... Listen to Track 3, "Are We Having A Good Time Yet?" - the song that has been getting all the US Alt. radioplay - 100+ stations so far and counting. A beautiful tune, harsh words, loud guitars over a hypnotic heavy groove. If it pulls you in, go back and listen to Track 2, the gentler "Nobody Knows Anything" - Radiohead plays a nice tune. The follow-up radio single was Track 4, "Star" - more hard lyrics, and sounding as if Neil Young wrote songs for Led Zep. Perhaps. The forthcoming single is Track 7, "Oxygen Thieves" - more laid back guitar-groove in the vein of trk 3 "AWHAGTY". Those are the instantly accessible highlights - there's a lot more, but you can listen at length when the CD arrives...
