Here is what I like most about Bridget: She gives a crap. Ms. St John is passionate and honest about her beliefs. I think that's sexy... 9 MP3 Songs FOLK: Folk Pop, POP: Today's Top 40 Details: ...the bottom line is this: if you like haunting songs about giving a crap (or if you are just a liberal in need of a soundtrack), then Bridget St John's My Palace is your kind of album." -South of Mainstream, Ezine.

"Anyone can carry off a love song, but not everyone can say something of value and bring it to life musically in the original way Bridget St John accomplished within this album." -B. Lofftus, devoted fan.

This singer/songwriter's debut album covers topics ranging from the personal to the political, giving her songwriting a folk edge, yet her music has a contemporary sound rooted in Pop/Rock. She's been stylistically compared to a broad range of artists including Heart, Sara McClachlan, Pat Benatar, and Carol King. To listen to more sound clips, you can go to Bridget's website (bridgetstjohn.net) and click on the Mp3 link on the top right. After the release of "My Palace," Bridget began forming a band named Sweet Punch, bagging the solo act, to begin not only new material, but to also perform her debut CD live. She also desperately wanted to get rid of the name sake issue, that is, being mistaken for the British vox Bridget St John in the Folk genre. A different band name is the only solution! Although Sweet Punch is just beginning their debut project as a band, you can visit their website at sweetpunch.com. Request to get on their mailing list for when and where they will be performing, and be the first to hear about their CD release! \_\_\_\_\_ NOT THE BRITISH FOLK SINGER FROM THE '60s '70s WHO CURRENTLY LIVES ON THE EAST COAST.
