Instrumental pop, jazz, new age music with hooky melodies and danceable grooves. 9 MP3 Songs POP: with Electronic Production, NEW AGE: New Age Details: "We can easily forgive a child who is afraid of the dark. The real tragedy of life is when men are afraid of the light" Plato That quote inspired me to create this CD. I've always heard music not only as notes chords, but have seen it in my minds eye as light. Many shades of light ranging from white to black. I'm sure there is a reasonable scientific explanation for this phenomenon, but all I know is that it is a great way to experience music. All we really are is light energy we are traveling our pathway through life as light, thus the name Light Traveler. Light Traveler is a new age cd but not your gramma's kind of new age, as every track on this cd is melodic with a melody you'll be able to remember hum after you hear it. I wanted to make a new age cd that was light fun, with rhythm tracks you can dance to. Light Traveler is pop rock, jazz, r&b, reggae especially new age. I wrote, engineered, recorded performed each of the 9 tracks of Light Traveler, now I want to share them with you. So please put it on the player, become a Light Traveler with me. With Love Light, David Arellano 1 Light Traveler Light Traveler is the first signature song on the Light Traveler cd. It has a melody that will hook you with a great beat, yet haunting. It will help you start your journey shrouded in a joyous white light. 2 Be My Lover. Stevie Wonder meets Christopher Cross, haloed in silver light, is my description of Be My Lover. A pop, jazz, groove with a sentimental melody, over smooth, intricate chords. You'll love it. 3 Senor Bad. Try a little new age funk. Electric Guitar horn section with bombastic red, yellow green light, is Senor Bad. It's bad thats good. 4 Sunset Red. If you've ever felt a sunset over the Grand Canyon then no other words are necessary. 5 It's A Jungle in Here. The critters get a chance to sing on this track. Check out the thirst quenching shades of silver, green, yellow browns in this track. 6 Love Is Happy. If Herb Alpert Bob Marley ever formed a band, this would be their first release. Throw

Count Basie in the chorus with royal blue, red, gold silver you have Love Is Happy. 7 Drive Time. I wrote this pop jazz tune back in 1973 when I was with The Ides of March I've finally found a vehicle for it with this cd. If you like Ramsey Lewis or Bob James, you will love this tune. It's running on a green light it's a gas. 8 Forever After. This new age pop song is a summary of everyone I've ever loved in my life. Envelope your self in the reflective purple gold light on this track. 9 Light Dancer. If Light Traveler is the Alfa signature tune on this cd then Light Dancer is the omega signature tune. this poppy, reflective tune lets you know where you've been where you're going. This is a dancing white light tune. Thanks for listening, David 1909 337-4965 David-Arellano.com hotgigsmusic@yahoo.com David Arellano I've been a performing and recording musician since 1964.
