industrial techno, darkstep, DnB,-- if Rob Zombie and the chrystal method were to have a baby, it would come spewing forth-- and sound just like this... 18 MP3 Songs ELECTRONIC: Industrial, ELECTRONIC: Techno Details: Well this cd is about 7yrs in the making-- it's an enourmous relief just to have it finally finished. But every work of art is abandoned never finished, but cummon, 7yrs is pretty good. Anyway allot of this cd illustrates my disgust of religous fanatics (propaganda, bad girls go to hell), my love of horror films (ave satan, monsters), old time radio (murder, graveyard mansion) and a little S&M never hurt anyone either (bad girl, bathory, abrasive, sucubus.) just remember-- its all in your Hed.
