The gospel message clearly presented in a mix of pop, light rock, and a little country style. 12 MP3 Songs

GOSPEL: Contemporary Gospel, EASY LISTENING: Soft Rock Details: I asked myself a question One I thought I knew A simple honest question It changed my point of view A twisted way of thinking, I hope you understand It helped me see more clearly How I fit into Gods plan WWGD is where theology and melody come together, where preachy and compassionate coexist. From the hard driving Only One Way to the introspective See Through A Glass, there is no room for misinterpretation. The theme is love a new kind of love, selfless sacrificial love, love that fills the cracks, God's perfect love. Jesus said Go Tell; and that is what this album is all about. Now I ask this question Youll know if its true So listen very closely, let His Spirit answer you What would God do? If He was like you?
