That's what music is to John Jones, and what John's music brings to those who experience it. Connecting through notes and lyrics is what John has been doing since he was ten years old. Starting out in gospel choirs in Riviera Beach, Florida and following his passion to the stage and beyond, John has cultivated his love and has delivered it on this debut CD for the world to live through. As John says, "Each song represents a moment, and each moment brings clarity to an otherwise tangled existence, helping us all to breathe a little deeper, and feel a little longer." John's dedication to telling stories through melodies is only exceeded by his wonder for the human condition, writing, producing, and arranging a range of styles from well known standards to contemporary beats and everything in between to what he calls "classical-soul", which fuses a classically trained approach with a rich, soulful expression. John truly hopes to touch all those who feel the need for musical rebirth with each press of the play button.
