Texas Folk Rock 11 MP3 Songs FOLK: Modern Folk, ROCK: Folk Rock Details: Music Night is the second CD offering of siblings Patrick, Anthony and Laurie Juneau from their independent label Ole Blue Records. The musical roots stick close to Texas and the subject matters range from the melancholy Grounded to the rocking fun of Soymilk Cowboy. Never afraid to poke a little fun at themselves, each other, or confess of their demons, Juneaus Music Night rocks you through a breakup in The Problem, draws you in with a swampy groove in Love Like Texas and then sends you off with the reason they do it Music Night. Produced and recorded by Jack Saunders at White Cat Studios, this sophomore effort brings in some great players to go along with the trio including Jack Saunders, Rick Poss, Allen Huff and Rick Richards. The harmonies are tight, fun, and sometimes haunting but it all comes down to the love of the songs and the songwriting process. Strap yourself in its time for Music Night!
