Folk music with a rock/country/blues twist. 11 MP3 Songs FOLK: Folk Pop, FOLK: like Joni Details: I grew up on a farm in north central MT. That statement says a lot about who I am. Nature has had a profound influence on my life and songwriting. I call myself a western person. I have lived on the west coast (Seattle area) and the midwest (St.Paul MN) but I feel most at home in the wide open spaces. I picked up the guitar at the age of 14 and started writing songs as soon as I could put a couple of chords together. I have always gravitated towards the singer/songwriters and their attempts to explore the vast map of human experience. That's what I try to do in my music, too. If you really want to know me check out the song "I Live Among Aliens." This is my most autobiographical song. Thanks for listening. I hope you enjoy the music.
