Miles Spencer's latest release, "Feel", is an elegant, yet streetwise fusion of Euro-Pop, Rock, Blues and Nu Jazz. Something for everyone. 11 MP3 Songs POP: with Electronic Production, JAZZ: Smooth Jazz Details: My music draws upon a vast spectrum of influences. Jeff Beck, Santana and Steely Dan all have a direct impact on both my compositional and lead approach. Players like Billy Gibbons and Stevie Ray Vaughn have also influenced me. I have a background of studies in guitar and music theory and have been recording in studios since I was 18 years old. I also have extensive live performance experience. My music style can best be described as jazz chord patterns over contemporary beats and lyrical approaches. In addition to myself on guitars and lead vocals, I also showcase a variety of exceptional soloists; on piano/ synthesizers (Paul Von Thadden), saxophone (Carol Chaikin Kurt Mann), harmonica (Rube) and background vocals by Janessa Delgado / Lori Nebo. All my recordings and writings can be obtained through Bad One Inc.
