Intimate Folk Pop 14 MP3 Songs FOLK: Folk Pop, ROCK: Glam Details: "Honest genuine lyrics that are sung with sincere clarity comprise one of the first reasons why I like this album so much. But another reason is his hearty and clever guitar playing which while simple, is to the point and never really holds anything back. Peasant has that sort of folksy pop ballads that the 60s were renowned for but with vocals that seem more Crosbys, Stills and Nash than Dylan. Amazingly only 20 years old, Damien DeRose aka Peasant is the lone driving force behind this intimate folk pop force. Please give this artist your undying support, hes worth fifty times what hed ever charge for his music." - J-Sin. (Editor smother magazine, smother.net) Fear Not Distant Lover was Editor's Pick on Smotherand several songs have been favorites on popular and well-respected music blogs like Saidthegramophoneand Ear Farm. After releasing the album to the general public in the Winter of 2005, Peasant has toured extensively from Burlington to Philadelphia.
