Checked out mp3 samples and they sounded ominously yummy yummy! Good stuff!" "not quite steve roach, but still pretty cool" "Great CD!!!!" " . . . stellar debut effort . . .!" Here's some background on these samples and their creator: I am a child of the 1950's 60's -- immersed in a culture of flying saucer sightings, alien abductions, Lovecraftian monsters a'foot, weird TV like The Twilight Zone, The Outer Limits, and movies like The Forbidden Planet, The Day the Earth Stood Still, The Thing, This Island Earth, comics, nightmares, fever dreams, nuclear-threat neuroses from living near the U.S. Capitol city and all that brain rot! I am also a synth addict and special effects junkie. Add all that to the fact I am a published sci-fi fantasy horror author and graphix artist and you get some idea of the calibre of effects I have created for my own pleasure and now can be yours. If all that is not enough, I used to be a UFO sightings investigator for MUFON, (interviewed in newspapers and on TV), and a paid journalist for paranormal investigations. Had enough? I am not done yet. So since the mid-90's I have been a reviewer of ALL musicks weird and amazingly outre from all over the globe. So with that info and experience all packaged into my samples -- how can you not afford to experience my brain on whacked-mode for yourself? "And I came back to find the stars misplaced . . ." THIS CD HOLDS SOME OF THE VERY WEIRDEST SOUND SAMPLES AND SONIC TEXTURE MANIPULATIONS YOU HAVE EVER HEARD! I CAN GUARANTEE THAT BECAUSE I HAVE FOLLOWED SYNTHS ELECTRONIC MUSIC ARTISTS SINCE THE 1960'S, FINALLY BECOMING A PAID MUSIC REVIEWER OF THIS GENRE. MY REVIEWS AND RADIO SHOWS ARE WELL-KNOWN ACROSS THE PLANET. I HAVE HEARD NEARLY EVERY TYPE ELECTRONIC MUSICK EVER RELEASED AND SOME NEVER RELEASED. I DECIDED IT WAS TIME TO GIVE BACK MY OWN TRIBUTE OF THIS TYPE EXPERIMENTAL MUSIC THAT COMBINED THE SOUNDS OF ARTISTS LIKE SUBOTONICK, VARESE, GASSMAN, SALA, TONTO'S EXPANDING HEAD BAND, TANGERINE DREAM, KLAUS SCHULZE AND CURRENT-DAY ARTISTS LIKE STEVE ROACH, ROBERT RICH, LUSTMORD, JEFF GREINKE, w. carlos AND OTHERS OF SUCH ILK. BUT MY RECORDINGS GO BEYOND SIMPLE KNOB TWIDDLING, PATCH CORDS, MOOGS, ARPS AND KEYBOARD ANTICS. I ACTUALLY CREATE WAV FILES FROM SCRATCH AND USE FOUND AMBIENT SOUNDS AS A SONIC

PALETTE. I THEN MUTATE, TWIST, WARP, AND MASSAGE EACH WAV INTO MATHEMATICAL AND VISUALLY PLEASING FORMS AS I ALSO CREATE THE AURAL SIGNATURE. WHAT YOU WILL HEAR IS HOURS UPON ENDLESS HOURS OF A MOSAIC TAPESTRY OF SOUNDFORM MATRICES IN FLUX OVER TIME. NO OTHER ARTIST I AM AWARE OF DOES WHAT I DO AS I DO IT. IT IS AN OBSESSIVE LABOR OF LOVE TO WHERE EVERY SECOND MUST BE PERFECT AND MY OWN PSYCHE MUST ALSO BE MOVED, EFFECTED AND SHIFTED INTO ALTERED STATES BEFORE I OFFER THE SAME EXPERIENCE TO OTHERS. SO, THERE YOU HAVE IT. YOU WILL EITHER LOVE THIS MATERIAL OR ABSOLUTELY HATE IT. THAT'S WHAT I LIKE -- SOMETHING THAT IS NOT BLAND OR COPY-CAT BUT AN EXPERIENCE THAT CANNOT BE IGNORED. SUCH IS THE ART OF SOURCECODEX. ENJOY!

Specially crafted analogue synthesis UFO sound samples: Yeah, I know, you're thinking, "Nyaaa, I can make this stuff myself when I need it." Well, probably so -- but there's the time issue. I have spent dozens of hours creating each of these waveforms and then massaging them into perfection. You wanna sit down and figure out how to make your own -- and after many hours you might get close to re-creating maybe 3 or 4 of the files I offer? Okay. And do you really wanna then try and make another 30+ of them? Your call. These babies are ready to go straight into your own audio editing program and synthesizer sampling systems. Similar concept discs exist -- like this one I offer -- yet many are filled with a mish-mash of off-the-hip glurps and drones and cheesoid-lame FX. They sell for \$75 to \$200. That is ludicrous. Save lots of dough here. UFO SOUND FILES VOL. 1 offers: UFO-ish synth sequences, ambient space drone-scapes, specially processed synths FX atmospheric weirdness. Deep bass drones offer Mothership-like metallic dread or echoes of the ethereal void of deep space. We have even added found-sound snippets, devolved everyday ambience FX, and other one-of-a-kind Sci-Fi / Fantasy / Horror / Dark Alien Ambient Sounds promise a truly unique and handcrafted, endlessly tweaked knob twiddled, ultra-creative sample library. Use these files for synthesizers that have sampling functions like the Korg Triton. All these UFO sound files FX are ROYALTY-FREE but NOT FOR RESALE. Once you own this disc or file, it is yours to do what you want with it. Use it for segues, loops, grab a fav piece of a one of these sound files for a chill-out filler, or you soundtrack folks can use my ideas in their scores. Consider these sound files as 100 sonic shades of color on your aural palette to then mix, overlap, loop, mesh, crunch, warp, twist so create your own masterpiece and thus answer to the Muse inside you. And for you cyborgs out there -- you may just find this CD as a way to relax and remember your source. If you

care to, please let me know how these samples helped your specific project. Thanks. About the creator of Royalty-Free: UFO Sound Files Vol. 1: SourceCodeX aka John W.
