A Jamaican Eminem. 19 MP3 Songs WORLD: Reggae, HIP HOP/RAP: Hardcore Rap Details: A delightful blend of many Jamaican styles of music including, reggae, dance hall rap, raggamuffin, and Jamaican inspirational music. The messages are positive, and the rhythms are positively dancable and play well in the background as well. There's a vehicle here that takes you back to a Jamaican beach and a bottle of Appleton 30 year estate rum and yet the lyric rhymes have a wonderful set of messages which will emerge, not too many at a time for you to think about while sipping that rum. JAH SALA might make you think of Ethiopia, Solomon, or simply "the mos' high", but whatever you thought of the name, the common theme is "greatness". The greatness that comes from and defines a great, inspirational, mentally aware, stimulating, persistent ARTIST who is destined to live up to the greatness of his name, and be a voice of the people. JahSala has been on stage since he was 18 articulating the message his people may already know in their heart, but JahSala comes forward and brings a reminder to them through his rhythm and his verse.
