Changing styles of hip-hop, from laid back to hard-core. Serious MC styles face humorous situations. Experimental and progressive beats that are laced with familiarity. 15 MP3 Songs HIP HOP/RAP: Alternative Hip Hop, HIP HOP/RAP: Hardcore Rap Details: Formed at the dawn of the millennium by Hysteria 51, AMPM Sound has sought to explore new realms of musical bedlam. Through the mechanism of hip-hop, The Triggermen (Hysteria 51 DJ Yosamite), speak to the billions of people who have little clout, charm and sense of normalcy. In a time where most MCs speak of their egos and appeal, The Triggermen reverse that to uncover the not-so-picturesque side of everyday life. From restraining orders, drug binges, sexual mishaps, celebrity repugnance to fake mustaches, they are truly people with low self-esteem. However, with 51s Dice Clay-like delivery, and Yosamite's Cuisinart-like cuts, The Triggermen manage to do something that can be marveled at. They make unattractiveness seem, well. .cool.
