Without Having To Write From Scratch!" Grab The NO RESTRICTION Private Label Rights To 4 Brand New Products You Can Call Your Own, DO ANYTHING YOU WANT With Them, And Generate MULTIPLE Profit-Pulling Income Streams Selling These Products As Your Own! And At The End Of This Letter, You'll Also Discover A PRICELESS Bonus That Can Enable YOU To Profit From These Products In The Next Few Hours! (HINT: In case you're guessing, NO, This Is NOT An Invitation To Join My Affiliate Program!) Dear Professional Marketer, You and I know have definitely heard the popular maxim of "having your own Info products" if you want to succeed BIG time online (and who doesn't want to?). In ways more than one, it's very true as you can see this being practiced by successful top Internet Marketers. Why? One obvious reason is that having your own product offers you several advantages and flexibility in making money - and your imagination is the limit! Let me suggest some profit-pulling ideas with what you can do when you have your own products. Well, you can: Make money from selling the product. This is what we call the up-sell. Unlike joining affiliate programs, you get to pocket 100 of the sales and keep the money instantly right after the sale is made! Sell the exclusive Resell Rights to other resellers at 5 to 10 times the product price - something which you cannot do with other people's products, Offer Full Master Resell Rights and make your product a viral marketing agent! Add your own choice of back-end lead collectors and affiliate links into the product for extra income! Sell the product's editable Private Label Rights to other Information Marketers at 10 to 20 times the product price! Re-use some of the contents of your products to churn out multiple free reports and articles, Choose to publish your work offline! And much, much more! And That's Just The Tip Of The Iceberg! Imagine the amount of profit-pulling possibilities you can generate simply by having your own products, which you cannot possibly do or achieve as an affiliate or even reseller! But more often than not, it's easier said than done. The HUGE problem lies in... you've guessed it: product development. We're talking about weeks to even months here. I create Info Products for a living so I am very, very, very familiar with how tedious the product creation process can be. And remember that the pot

of gold is found in marketing your product, not in its development stages. Now maybe you hate writing. Or maybe you don't have the time for it. Perhaps you can't afford to hire a team of ghostwriters at this stage. So... what is the solution? May I Suggest That YOU Skip All The Product Creation Chores And... ... Own the NO RESTRICTION Private Label Rights to my latest collection of not one, not two, but four (4) brand spanking new E-Books? That's right. All the product development and E-Cover design work have been done for you so you don't have to! And the best part is that you can do ANYTHING YOU WANT with them! (Read that again, it's not "almost anything"!) And At The End Of This Letter, You'll Also Discover A PRICELESS Bonus That Can Enable YOU To Profit From These Products In The Next Few Hours! No Restriction Private Label Rights To: The Affiliate Marketer's Handbook The Essential Guide To All Would-Be Affiliate Marketers! Most beginning Internet Marketers often elect the path of an affiliate marketer. This is usually the case because many budding online marketers don't have the huge investment or appetite for risks at an early stage. On top of that, joining most affiliate programs are free and they can make hefty commissions promoting other people's products without partaking in customer support, product development, and so on. However, most affiliate marketers are still a few skills away from making money online and that is responsible for making uninformed affiliates fall into traps like spamming, using wrong marketing methods, and anything that would suck them in faster than a black hole. The Affiliate Marketer's Handbook reveals proven elements of all things essential when it comes to marketing online as an affiliate. The book details not only the pitfalls to avoid but important affiliate marketing elements like the

right program to join, how to promote an affiliated product, and much more!
