Discover How A Revolutionary (But Yet Very Simple) Tool Will GUARANTEE That Your Message Reaches Your Members Anytime, Every Time & Without Fail! The Statistics for Email Are Not Encouraging On June 12, 2006, the Nielsen Norman Group published the Email Newsletter Usability Report. This report found that: Only 19 of newsletters are thoroughly read by the recipients. Readers primary method of dealing with email newsletters is to skim them The fact that email users continue to receive more and more email has caused them to become even more stressed and impatient when going through their inbox. Email recipients are increasingly using spam filters as an easy way to eliminate newsletters they no longer wish to receive. RSS is NOT the Answer at Least Not Yet....
