Pensive, pure, and authentic songs about love and life that flow from the depths of the heart. 16 MP3 Songs POP: Piano, POP: New Romantic Details: Born and raised in New Jersey, singer-songwriter Adina Chastine has been playing the piano since the age of five and composing songs since her early teens. Beginning at the age of sixteen, Adina started recording her piano compositions, highly melodic works with a new age sound. At the same time, she began singing and accompanying herself on the piano or guitar. Jam sessions and coffee-shop performances with her fellow musician and brother Jonathan contributed greatly to the evolution of her distinctive musical style, as did her exposure to and love of lush film scores, Broadway melodies, and the music of Jewel and Fiona Apple. Over the next nine years, Adina wrote the words and music for more than thirty songs. Adina's innate sense of harmony has also led her to perform and record backup vocals for other artists. With this debut album, Adina shares a compilation of sixteen of her own introspective, intensely passionate songs. Their rich melodies and intricately poetic and meaningful lyrics resonate with a poignancy that instantly reaches the heart while capturing the highs and lows of love and life. People who are interested in Jewel Fiona Apple Vanessa Carlton should consider this download.
