Culture-Pop: An eclectic hybrid of world-beat, soukous and rap. ANTI-GEORGIE LYRICS. 6 MP3 Songs

WORLD: World Beat, URBAN/R&B: Contemporary urban Details: Cold Joon is the DEFINITIVE Anti-Georgie band. Sad to say, Georgie has given us endless song ideas and lyrics to play with his dangerous 7th grade IQ. However, we also remain positive and constructive and try to help rebuild bridges with the confused, disappointed and alienated people of the world. In addition to Politi-Cold music, our lyrics also deal with social injustice, spirituality, sappy love songs and fun, Saturday night dance parties. Music to make ya move and think. This CD, Time To Go, was released in 2004 and was our first concept Anti-Georgie album. We wanted to do our part to remove the arrogant cowboy and restore dinity to the US. But, YIKEShe somehow got re-elected. So, were rolling up our sleeves and continue to comment on the disastrous, secretive, imperialistic ways of this administration. Songs on this CD include the title track, Time To Go, Soukous in Texas, an upbeat soukous song for the embarrassed people of Texas and a shortened radio edit version of the epic 18 minute 9/11 song, I Didnt Do It. Also included is a re-release of our Tiger Woods rap song and a fun, funky song that asks the girls to get ready for their big date by getting their Weave On Skrate. COMING SOON! The new Cold Joon CD, Urban Rhino, in May of 2006. Please visit our website, coldjoon.com, for more info about our music, artwork and social mission. The site also includes four videos, including our newest smash, Condi Gap-Tooth Arroz, a high-energy, soukous song about Secretary of State, Condoleezza Rice. Ya GOTS to see it!
