very strong guitar work, strong lyrics, power folk/folk blues - Very tuneful. 13 MP3 Songs FOLK: Modern Folk, FOLK: Folk Pop Details: This is Cosy's most tuneful cd - and her most produced one. Said the Boston Globe: "Her user-friendly musical philosophy sets her happily apart from the myopic, self-involved songwriter so often lambasted by everyone. She's wonderfully lively, very funny and enormously amiable, with a keen and wicked eye for the excesses of our fast-food, tv-happy and noisome culture. Cosy is a national award winning songwriter. She writes for Acoustic Guitar Magazine. She teaches songwriting in the summers at nationally acclaimed music camps (The Swannanoa Gathering, Summersongs). She has a one-woman-show, "The Pomegranate Seed - An Exploration of Appetite, Body-Image and Myth in Modern Culture", which she is currently touring around the country. Be sure to catch it!
