Programs Bedside Music Harp Sales and Lessons 3 CDs available People have been aware since Ancient times that sound has the ability to transport the human spirit to different states of consciousness. Wordless sound transmits messages that are accompanied by states ranging from tension to relaxation, uneasiness to a sense of well being. It is my intention to provide music that facilitates a journey of visiting several different attributes of life, culminating in a sense of serenity and inspiration. De Luna was born on the Island of Malta, in the Mediterranean Sea to a Maltese Mother and an English/Irish father. Because of her fathers work, the family moved frequently between the British Isles and Malta. At the age of ten, De Luna and her family moved to Brooklyn, N.Y. Music has played a very important part in De Lunas life, offering her deep comfort and joy through her many transitions. Her first harp was gifted to her in 1991 by a parting friend. Soon after, she moved to the mountains where she became totally enchanted with the joy of playing the harp. She taught herself to play by spending countless hours exploring, experiencing and studying the harp. From her various travels, she developed an interest in music from all parts of the world, including studying Classical Indian Music with Sitar Master, Roop Verma. To date, De Luna has released three CDs that include a soulful mix of traditional music from many parts of the world as well as original compositions. De Luna now resides in New Hampshire and performs at festivals, retreats, special events and many other venues.
