

## Mp3 Ekiti Son - Nepotism

Experimental Hip Hop 16 MP3 Songs ELECTRONIC: Experimental, HIP HOP/RAP: Hip Hop Details: I first heard Ekiti Sons music on an Audio Dregs / Tomlab compilation and was immediately taken with the sweet fusion and blatant charm of the sound. His album Nepotism is full of brilliant individual tracks and still manages to work well as an LP. Charming and full of rhythmic and melodic playfulness, it sounds to me like the kind of thing that Rephlex might have released a few years back. Yeah, yeah I know that's not the most original thing to write but I say it purely because while being mostly electronic the music fuses so many ideas together in a very natural way. It sounds human too which helps to give a lot of the tracks a soulful feel to them. Ekiti Son strikes me as being quite blissfully ignorant of what else is happening elsewhere and is just going for it long may that continue! I really hope this gets the attention it deserves or at least gets heard by the people who would love to hear it.
