With Ryan and Johnathan's resourceful mixing and mastering skills, they were able to get an extremely professional quality sound. Ghost Fleet Says... "Can you see the invisible? We do everyday. The lies, hate, deception and greed that is beyond the eyes of most people." Reviews: 1. Ghost Fleet / "Conspiracy Theory" ONO Productions, 2004 Ghost Fleet has it! They didn't just copy some popular rap and hope for the best. Ghost Fleet creates an image.

They turn lyrics into theatre. They've gone beyond reality and drop new fresh beats. And they can write. It's about time that someone throws out words again and respects a mic and the listener. -Michael Anthony, The Michael Anthony Show 2. Ghost Fleet / "Conspiracy Theory" ONO Productions, 2004 This is the best rap album I have heard in a long time. It reminds me a bit of the crazy kinds of things you get from Twizted. The mixes are really off the wall, the vocals are cool sounding, the lyrics are fun and there are spooky horror/ sci-fi themes. I can't wait to share this one with my friends. They used the theme from Inspector Gadget in a dirty sex rap. Who isn't going to love that? Yea, this is going into my rotation. Thank god for creative artists like this who breathe new life into mediums that are growing ever-staler. -Neo-Zine 3.
