I write mostly love songs in a very soothing, easy-listening style. Most of the tunes on this album are arranged performed by Bay Area artist, Denis D'Aoust 9 MP3 Songs EASY LISTENING: Love Songs, POP: New Romantic Details: began writing music when I was thirteen although I had been playing guitar since I was eight years old, inspired by the many bands of the mid-sixties. Of course, I was a little young in the Sixties so, the music I danced to and listened to in high school and beyond was that of the Seventies. In particular, artists who influenced me were : Paul McCartney/Gordon Lightfoot/ the Moody Blues/ Loggins Messina/ John Denver/ Dewey Bunnell (America)/ Dan Fogelberg/ Michael Murphy/ Tom Petty (some of my rock stuff), and others. I've written songs in a variety of genres, including: Country; Christian, Rock R B, Celtic, and others. My primary style is easy-listening, adult-contem-porary pop ballads such as She Could Be the One, which I co-wrote with Denis D'Aoust. I continue to collaborate on new tunes and on breathing new life into old ones with Denis D'Aoust, who arranges and performs most of my more recent demos. I am a member of the Guild of Int'l. Songwriters Composers and regularly collaborate with other members as well as local musicians in the Bay Area. People who are interested in Gordon Lightfoot John Denver Michael Bubl should consider this download.
