Acoustic, electronic rock with haunting and soulful melodies and electronica inspired beats. 6 MP3 Songs

ROCK: Acoustic, ELECTRONIC: Trip Hop Details: Kira Leigh displayed a unique ear for music at a very young age. Born the daughter of two ballet dancers, Kira grew up in theatres, dressing rooms, and studios, where she experienced music on a daily basis. Having started piano at the age of five, Kira's longing for expression needed further release, which came in form of voice. Kira always loved to sing more than anything. And at sixteen, began formal vocal training. Before she knew it, Kira found herself accepted into various prestigious conservatories, and chose to attend the North Carolina School of the Arts. Kira's passion for New York City carried her off, after college, to perform at cabaret clubs like Don't Tell Mama's and Babalu. With such a strong background, and so much experience at a young age, Kira Leigh still found herself searching for her musical calling. Kira was a classically trained vocalist, but truly wanted to sing contemporary music. On a trip to perform at the Hollywood Music Festival in Los Angeles, Kira Leigh found herself wanting to write and perform her own music. Upon returning to New York, she began looking for people who could help her realize this desire. Kira came across a producer named CT Tamura (t-san.net), and discovered that they had a musical chemistry. This chemistry produced songs that fuse electronica with the heartfelt, organic energy of acoustic rock, and even drum and bass. The music is expressed with a searing and poignant honesty. Kira's impassioned lyrics, combined with a technically stunning delivery, made a huge impact at her debut performance at The Bitter End in New York City. Currently performing acoustically, Kira's style draws influence and inspiration from the raw energy of Tori Amos, and the quiet longing of Sarah McLachlan. She combines it with a modern rhythmic edge and attitude that echoes Christina Aguilera, and even hints at the sensibility of the ballad-minded Madonna. Kira's message is delivered through clear melody, uncanny phrasing, and true emotion. She is

here to leave her emotional imprint in today's disenchanted music conscious.
