Different digital pianos blended with lush multi-timbral synthesizer sounds. 15 MP3 Songs ELECTRONIC: Soundscapes, EASY LISTENING: Mood Music Details: Maurice Horne is a composer and keyboard performer who has published numerous CDs in recent years. His latest release in 2005 is "Piano Dreams." Create your own dreams with this masterful exposition of strings and piano. Each song begins with full synth strings and then they become the background for beautiful piano ballads. A perfect background music CD for your quiet times. He has published 8 CDs in the last four years. Five of them are on cdbaby.com/horne. They are also available for digital download from numerous internet sites such as iTunes, MusicMatch and Rhapsody under CD Baby's digital distribution. A classically trained musician with both degrees in music and law, he devotes his evenings and weekends to composing, recording, and publishing ethereal synthesizer and piano music. He records in his home recording studio. Maurice holds copyrights on hundreds of unpublished songs. Maurice's CD release in (2004) is entitled: "The Music of Angels: 20 Traditional Hymns." Keyboard music of the old hymns such as this one is not available in stores. You will find yourself singing along with these familiar hymns. Also, there is a hymn on Track 20 composed by Maurice. Other CDs available on this site are: "Tranquility" (2002) and "Soundscapes" (2001) on synthesizers; "Greatest Hits" (2001) on grand piano; and "Loves' Communion (digitally remastered 2001) on piano; and "Sweet Contemplations" (digitally remastered 2001) on electronic keyboards. "Pianoscapes" has 15 tracks with different digital pianos blended with lush synthesizer sounds. Some tracks are piano renditions similar to Shubert's Impromptus. In fact, impromptus may be the most accurate genre description of his music. "Tranquility" is comprised of 19 tracks of orchestral strings and other multi-timbral synthesizer sounds and pianos. The music is ethereal and causes one to feel serene as if traveling in free-floating outer space. It is definitely meditative and relaxing music for

driving or as a warm, supportive background for whatever you may be doing. "Soundscapes" contains 12 tracks of synthesizer sounds based on space themes reminiscent of Gustav Holst' 'The Planets'. The music of Maurice Horne is music you haven't heard--and music you won't forget. If total relaxation is your destination. Place the CD in its tray and you're on your way.
