Masterminded by Omar Nasr, of Lebanese and Canadian decent, Omars passion for music is evident by his ability to create a classy club vibe in all his music. As a managing partner for several cigar martini lounges, his familiarity with the club scene puts him on the pulse of club music. This is Omars second collaboration with writer/ vocalist Mary McGrath, who resides in Los Angeles. Marys writing has been featured in a number of publications, including Newsweek, MSNBC, Good Housekeeping and many other publications. Mary performs around LA as a jazz vocalist, and on this CD, she brings her sexy vocals and suggestive lyrics to many of these dynamic tracks. Andr Ruiz lives in Braga, Portugal and is a teacher of music composition. Prolific in many styles of music, his soaring vocals and lyrics to give that added punch to several tracks on the CD. Soul Sensation is also proud to include the talents of Andreas Herrmann, a resident of Munich, Germany who is not only a conductor, but a dynamic composer, arranger and honorary professor. His vocals alone on many of his own creations are enough to make the angels cry.
