Details: Bumpy bass lines, electro beats and synth bits woven together by electric guitars that owe as much to punk-garage as they do to James Bond. This soundscape providing the backdrop to passionate tales of everyday existence. The upcoming self-titled debut album contains twelve songs written and recorded by Catterina and Josh adding the talents of two musicians of the L.A. scene; Pipe Ceballos on drums and bassist Rick Jeschke Deliz. The songs range from the lo-fi electro-garage of "Gold Chain (no quiero)" to the driving detective riffing of "Get Away" (complete with a jungle-Bond breakdown) to the dance rock of "Better" and "50 days" to the all out electro-stomp-tango of "Skango". Other great songs include "Come With Me", "In Your Head", "Bet for Best" and "On Fire".
