Pop, contemporary Christian, female vocalist. 11 MP3 Songs POP: Today's Top 40, GOSPEL: Contemporary Gospel Details: The other day I was reading through my Bible and came upon this passage. Once I saw the word "sing" it immediately stuck out to me because singing is truly my number one passion. As I read the verses I realized that, that is why I do what I do --- that is why I sing. I sing because Jesus has done so many wonderful, glorious things for me and for the world. I want to sing for joy and let everyone know how amazing God is for he is the one who is always there to understand. He is the one who can fill you with a joy like never felt before. He is the one who will always love us and be there to pick us up when we fall and carry us when we feel like we can't go on any longer. I've always been a girl with a million dreams and I know that with the Lord's help and a determined heart a bunch of these dreams will come true. One of these dreams is coming true as I write this bio. I've been singing ever since I could talk, but since 2003 I've been writing my own songs. I wasn't actually sure if I would ever really do anything serious with the songs, but Jesus gave me a desire and I went with it. In December of 2006 I traveled to Arizona and recorded 11 of my original songs at SonicPhish Studios with producer and engineer, Ken Mary. It was definitely one of the best and most memorable experiences in my life! Even though my future music career is coming along great I still ask the Lord to "show me guide the way, what can I do for you someday, who shall I be, who shall I be". The Lord has great things in store for you too! Don't ever stop dreaming and remember that "[you] can do all things through Christ who strengthens [you]" - Philipians 4:13! I pray that this CD will touch at least one person's heart and give them hope.
