The SCM Core Text Theology and Sexuality provides a clear overview of the theological debate surrounding sexuality as broadly understood. It gives an outline of the major themes surrounding sexuality in theological perspective, focusing on key thinkers, concepts, and areas of discussion. This student-friendly textbook is aimed at theology students and ordinands studying at undergraduate level 3 and MA level who are undertaking modules on theology and sexuality, gender, sex and the human body. It is also accessible to Christian clergy and laypeople who wish to engage with issues of sexuality in congregations. The use of extensive glossaries, breakout definitions and examples makes the book accessible to those with little existing knowledge of contemporary debates on theology and sexuality. The book includes chapters on definitions of sexuality, sexuality in the Christian tradition, Christian approaches to marriage, celibacy and virginity and same-sex relationships.
