Automatic Bonus Delivery Software

Dear Friend, You know that Im a straight shooter. So Ill keep this short. Have you been wondering why only a handful of people are doing extremely well as Affiliate Marketers? Have you noticed what these successful affiliate marketers have all in common when they promote a product? The Answer: They BRIBE their subscribers and website visitors with BONUSES and REBATES to buy the product through their affiliate link! Thats right! Bonuses and rebates make their affiliate offers stand out of the crowd! This simple trick works extremely well and its responsible for generating millions of dollars in sales for many product launches in ALL kinds of niche markets! The BIG Problem: Heres what Joshua said... (1) When you promote with bonuses, youll need to get in touch with the customers after their purchases. (2) Youll have to contact them through emails requesting for receipt number and then validate the transaction from your clickbank account. (3) Email them BACK with the bonuses. In a perfect world, thats the 3 main things that you believe youll need to do... BUT unfortunately, there will be circumstances that the customers WONT send you the correct information requested the first time. Sometimes, they will completely forget to include the receipt number or send you the wrong receipt. Then youll need to cross

check again and keep emailing back and forth. I dont know about you but this is complete madness and its a really boring task! The Solution: Well, my coders and I have been spending weeks brainstorming and working on this to find a solution to this problem. And Ive to tell you that in the end the result was simply AWESOME! The Automatic Bonus Delivery Plugin Simple. Clean. Works extremely well. A simple set and forget system that will automate your bonus delivery process 24/7. NEVER again youll have to deal with all the problems listed above. Youll make your customers happy with very prompt bonus delivery and you wont even need to check it again!
