What I've seen in general is that most newbies have no idea on how to do these technical stuff. Even with the help of written manuals, they can only tell you how to do it on writing but you've still got to figure out how to do what you've been told! Why spend the next weeks and months trying to figure out all of the steps it takes to get things going online -- when you can watch someone show you exactly how to take action and get your Wordpress blog installed and running today? With these videos, you'll be able to watch them directly from the computer screen itself!
