

Mp3 Alex Arrowsmith - The Albatross Project

Finely sculpted pop tunes with smart lyrics and inventive songwriting capable of taming entire legions of sea lions. 15 MP3 Songs POP: Quirky, POP: Beatles-pop Details: Under the influence of the non-toxic mind control of 2004, Alex once again sculpts a musical statue worthy of recognition in the baseball hall of fame. With every song meticulously (but not lifelessly) produced to be a highly entertaining hit, what we have on our hands here is a potato-hot disc that plays like a greatest hits album. With the guiding spirit of a noble wandering albatross, songs like "I Am The Ice Age," "Fight The Cougar" and "Admire The Admiral" spew forth a fizzy vibrancy that's all too rare in pop/rock music these days. Ridiculous but focused, original but tuneful, The Albatross Project is the soundtrack to your Wednesday afternoon badminton lesson.
