Gorgeous vocals and solid late-night beats from San Francisco. 11 MP3 Songs POP: with Electronic Production, ELECTRONIC: House Details: We are Dem Suite. Our names are Elliott and Connor and we write songs that friends classify as Electronic, Soul, R&B, Pop and even Folk. Elliott sings on every song and plays piano and bass. Connor writes most the beats and records bass and synths. When we play shows we have friends play guitar and rap with us. We began writing songs together in Chicago 2 years ago. After moving to San Francisco we created our own record label called Trazmick and released our first full length record entitled Breaths and Pages in 2007. This Fall, the next release on Trazmick will be a vinyl 7 in collaboration with our friend DJ Spinnerty featuring remixes and unreleased material.
