Latin-Grupera Cumbia/Balada 10 MP3 Songs LATIN: General, LATIN: Tejano Details: My name is Lucia Cristina and I am a Mexican singer/sonwriter who had the opportunity to record my solo CD under the direction of a wonderful and talented producer named Raul Gonzalez. I decided to go to CD Baby because people are always telling me that my CD is so good, and that I should find a way to market it. I have enjoyed singing/performing in many different styles and also in English. I decided to record this Spanish CD because it is the core of my ethnic culture and I wish to share my voice and my songs with all who honor me with their attention. This CD is also extremely important to me because track Number 3 (which is also the title of the CD) is a autobiographical song, which I believe many women will be able to identify with. I sincerely hope you enjoy this CD as much as I enjoyed making it and thank you for your support. Espero poder llegar a los oidos y corazones de todos los que gusten compartir esta experiencia conmigo. El tema numero tres de este CD contiene una cancion original de su servidora, con la cual se que habra muchas de ustedes que se podran identificar con ella. Ojala que este CD sea de su mas grato agrado, como lo fue para mi grabarlo y espero poder compartirlo con todas mis hermanas que me den su atencion. Vivire agradecida siempre por todo su apollo.
