

Thermodynamics, Gibbs Method And Statistical Physics Of Electron Gases

[DOWNLOAD HERE](#)

1. Basic concepts of thermodynamics and statistical physics.- 2. Laws of thermodynamics.

Thermodynamic functions.- 3. Phase transitions. Equilibrium of phases.- 4. Canonical distribution. Gibbs method.- 5. Ideal gas.- 6. Non-ideal gases.- 7. Solids.- 8. Fluctuations. Brownian motion.- 9. Quantum statistics. Ideal quantum gases.- 10. Electron gas in quantizing magnetic field.- 11. Non-equilibrium electron gas in solids. EAN/ISBN : 9783642031717 Publisher(s): Springer, Berlin Format: ePub/PDF
Author(s): Askerov, Bahram M. - Figarova, Sophia
