Have you ever wondered how to add web audio to your website without the hassle of monthly fees? Well show you how in just a few easy steps -- 100 Guaranteed! Using it is simple enough for a ?non-techie?. It takes three short steps: 1. Use the microphone in your computer, and record the file. You can make it as long or short as you like, there?s no limit! 2. Upload the sound file it creates to your server (you own the file, not a third party) 3. Cut and paste the code that Web Audio Plus creates for you. It does the work, and it only takes a few seconds to cut and paste the code that IT creates for you onto your web page. == All products Sold at \$0.50 find more at 50CentDigitalStore All with Master Resale Rights Or visit our store : arammaha.tradebit.com ==
