Here's An Easy Way To Reduce The Risks Associated With Buying Advertising, By Sharing Costs With Other Webmasters Advertising online can be an expensive business, with quality solo ads often costing up to a hundred dollars or more. And quite often those ads just don't perform as well as you might have hoped. But without some sort of advertising, your business doesn't get the traffic it needs. So how can you reduce the cost - and risk - of advertising online? It's simple - find other webmasters selling something similar and then split the cost of the advertising with them. A hundred dollars split between five people is just \$20 each - and while this does mean splitting the profits, it also means splitting the risk too. This

means you can try more advertising offers, to find ones that work best for you and your partners. All you need to apply this strategy is an easy way to split the resulting traffic between you website and those of your partners. That's where Web Traffic Spreader comes in. It's a simple script that sends visitors to a web address chosen from a set of web addresses that you specify. It doesn't matter if you have one partner or twenty. The script will equally split the visitors between all the websites. The tool will create a new script file that you upload to your website. Now just send all your traffic to the web address of the script. Special Partners Page Your partners can test the script themselves, to make sure it is splitting the traffic correctly between all the partners. But for additional peace of mind, Web Traffic Spreader has a special partners page that you can share with your partners, so everyone can instantly see that the traffic is being split properly. Install On An Unlimited Number Of Sites You only need to order one copy of this software, irrespective of how many sites you own. You can install your copy of the Web Traffic Spreader script on as many sites as you want - all at no extra cost. Full Master Resale Rights Included FREE Web Traffic Spreader is a great tool - but I'm going to make it even more profitable for you, by including full Master Resale Rights free! This means you can sell the software yourself and keep all the money. Just make one sale to recover your investment. I'll even give you a copy of this ready-made sales page to make it really easy for you. Just add your own order button to the ready-made page, upload to your own web host and you can be ready to take orders instantly. You can also use the software as a valuable bonus with other items you sell, or include it in packages and membership sites.
