Spoken Word--New Thought Spirituality w/Music 9 MP3 Songs SPOKEN WORD: With Music, NEW AGE: Healing Details: What's up with our kids today? Depression, Hyperactivity, Satan-Worship, Drug Usage, Guns at School.....what's happening to our next generation? Daniel Jacob, L.M.P., is a Professional Bio-Energy Therapist, Stress Management Consultant, Teacher of New Thought Spirituality, and Researcher who has discovered some powerful facts about our incoming Generations X,Y,and Z. Daniel has been in practice 20 years. He has professional offices in the Greater Seattle Area, and also travels internationally, hosting Workshops and Seminars on the topic of Personal Spirituality. Behind all their maladjustment, sadness, poor performance in school, and psychic pain, many of our kids are very gifted, indeed. They have a hunger for spirituality (not necessarily religion), and they are brimming over with special gifts that they currently do not understand, or know how to adequately express. Humanity is experiencing a whole host of LABOR PAINS, around the influx of these special children--who have been referred to, by those who recognize and study them, as "Children of the New Earth." In Daniel's experience, they are known as "The Star Children." This 2-Cd Set contains 9 segments of information, presented in a spoken word format (with original music interludes) offering over TWO HOURS of new and innovative material. They speak about how these souls first arrived in our midst, and also the characteristics they display when they are awake and fully functional. As Star Kids awaken, they go through various stages of altered awareness and emotional readjustment. Their parents see this, and it can be a serious cause for concern. They are not behaviorally disordered really. They are simply a new breed. Once we understand who they are, and what they came here to do, living with them will become a whole lot easier. Topics explored are kids dealing with ADHD (attention deficit) Behaviors, Multi-Track Thinking, Multiple Personalities, and many other conditions that are labeled as "disorders." Depression is

quite rampant in society today--especially among the young. This material offers some definitive reasons why. Our educational system today generally does not address the deeper needs of young people. Therefore, many of them are withdrawn and are chronic underachievers. We're still focused on trying to teach them things, and on making them fall in line with our old ways of living and thinking. It will not work. Included here are some powerful new insights on how to connect with kids that hitherto have been unreachable. Daniel explains: "Not all young people are Star Kids. But many of them are, and a huge majority of them they don't even know it. They are asleep to what they carry inside them. A great many are restless and disoriented, because their Star Child nature has begun to come online. Society has made no provision for dealing with the new insights for effective living that they bring. Many people, around the world, are resonating with this information that Daniel is producing. He continues to be an active contributor to planetlightworkerand Children of the New Earth Magazine, to name but a few. He regularly receives letters from young people all over the world, confirming this new data, and asking for additional info--as do many of their parents, teachers, school administrators, and counselors as well. WRITTEN AND READ BY DANIEL JACOB. ORIGINAL MUSIC AND SOUND PRODUCTION BY JIM JACKSON.
