A relaxing, calm and melodic soundtrack that doesn't interfere with what you are doing. 9 MP3 Songs
EASY LISTENING: Background Music, NEW AGE: Ambient Details: David Baker is a solo guitarist from the San Francisco bay area whose music might be found as a soundtrack to a documentary or film or could be listened to at home while reading, studying or relaxing. His guitar sound resembles that of a keyboard rather than a straight-forward use of the the instrument as heard in the pop or rock genres of music. His is a music that can find it's way into the routine of work without interfering with the task, or could be the soundtrack to a cross-country road trip in the car CD player. While a long list of musical influences would be epic in length to mention, the impetus for the music is life itself and the meditation on a single moment or instant of intensely realized emotions while the music is an extension of that emotion, fully realized. People who are interested in Cocteau Twins Michael Brook Robert Fripp should consider this download.
