Stylish, swingin' '60s pop and roots rock. 13 MP3 Songs POP: Power Pop, POP: 60's Pop Details: As someone new to David Byron Ragsdale's In Here posted on the Audities list: "Man! What a great SUMMER release! This guy sounds like Chris von Sneidern and Andy Bopp (Myracle Brah) decided to go back in time and join The Searchers and write their material for them. He's got the von Sneidern vocal and the Andy Bopp wit and sting wrapped up in a package that will immediately remind you of mid-60's jangle pop. There's a bit of a country twang on a few tracks...but in a good way! Quite a surprise!" Ragsdale's long-overdue debut is no surprise to Philadelphia (former hometown) and Portland, ME (present locale) pop fans. Both as band leader (Sir Dot, Sky Grits) and member (Frotus Caper, Autumn Carousel), Ragsdale has left a wake of great songs, engaging performances, corny jokes, and shaken hips. Make your order, await your package, settle into a comfy chair, and find out why Groove Disques demanded this man deliver a viable product and lasting document of his music!
