This is possibly one of the few albums on the market that specifically focuses and supports health and well being through energy work. 11 MP3 Songs NEW AGE: Healing, WORLD: Asian Details: Zen Moon . . . composed and mastered in February 2004 by denebulae, one of the leading edge New Age artists in Holland and Europe. The CD was released in May 2004 and is now available through NMI in North America. It is the first in the Natural Balance concept series and represents grounding or connecting to the Earth's infinite energy using the nine aspects philosophy. The music predominantly has an Eastern influence, the first six tracks dedicated to energy/bodywork for Tai Chi, Qi Gong, Pilates, Yoga and Falun Gong or indeed any form of this type of complementary therapy or workout, and the last 5 tracks as meditation or relaxation... indeed a way to reflect on the chi experience. This is possibly one of the few albums on the market that specifically focuses and supports health and well being through energy work. Alternatively, the music is so carefully crafted and interesting that it is for everyday listening as well. Eleven tracks (The Opening, Stillness, Refreshing, The Flow, Hua Chi, Wu Chi, Zen Moon, Llang Yi, Tranquility, Transcend, Pa-Kua) totaling nearly one hour of quality music featuring the following: hammered dulcimer, Tibetan bells, gongs, sitar, flutes, natural soundscapes, acoustic guitar, tablas, electronics and special effects and much more. Selected extracts can also be heard at our Worldwide website denebulaeor by visiting The Oasis, store in Red Hook, New York. Tel: 845-758-3858.
