"Serge Gainsbourg Meets '80's Manchester" 5 MP3 Songs POP: New Wave, ELECTRONIC: Ambient  
Details: Halcyon Days are a British ambient pop group based in London and Reading. Clare - Vocals  
Keyboards Carl - Guitars Rod - Guitars Programming The three met in London and are now writing and  
producing music together that will fascinate, inspire and surprise you. Their music has been likened to  
Bjork, The Cocteau Twins, This Mortal Coil and The Sundays. They have blended New Wave sensibilities  
with ambient sounds to create a unique style of indie dream pop. This EP was recorded in five days at a  
studio in rural Oxfordshire and engineered by Chris Hufford (producer of Slowdive and Radiohead). Prior  
to recording, the tracks were honed on the road during a tour which culminated in a live show with Tori  
Amos. It was feared that this, the first release on their own Real Gulf label, might never see the light of  
day as the band members pursued numerous other projects including bringing up 5 children and starting  
2 successful businesses! So, at last, it's time to chill out and sing along to the colourful sound of a  
Jasmine Sunset!
