Details: Johnny Madwreck, best known for his group "The Others", is one of the most unsung artists in the underground hip-hop scene. But that's exactly how he likes it. Whether he's rocking the mic in front of 6000 benighted fans at an unannounced appearance or submerged in his secret underground studio the results are always unprecedented. It's as if Johnny Madwreck feeds off of the shadows, immersing deeper into the dark with every new abstruse work of art he releases. Long Distance Linguistics was written while JM was on a european tour, hence the name. It contains never before heard solo material with guest appearances from Supastition, The Others, and more. Raw, brilliant, this album knocks harder than the jakes at your front door. JM's ability to create timeless hip-hop ensures that this album will provide listening enjoyment for years to come.
